1.75 kg/m2
pile viscose / base wool
Anti slip latex

CARE INSTRUCTIONS

Vacuum regularly to shorten the time of the natural shedding of the fibers. Avoid direct and continuous exposure to sunlight. Turn carpet occasionally to equalize wear. Remove spills immediately, if liquid, blot with clean undyed cloth by pressing firmly around the spill to absorb as much as possible. For hard to remove stains, professional rug cleaning is recommended. Store in a dry, well-ventilated area.
