2024

We are a trendsetting Belgian manufacturer specialized in refined rugs and decoration textiles. This family company has been founded in 1971. Our 4 managers, Frank, Isabelle, Tony and Vincent, all have the same goal: to share their passion for decorative textiles and carpets with their clients.

Thanks to the know-how that was present within the family, over the years we have invested in an internationally deployable machine park full of custom-made options.

Today, we offer exclusive decoration textiles and carpets for various sectors in more than 75 countries. We surrounded ourselves with a highly skilled, dynamic, creative and innovative team.

Our collections contain both contemporary and traditional designs in a wide range from low end to high end rugs. All rugs are made-to-order, giving the customer the opportunity to make a personalized selection from the complete range. It guarantees the customers flexibility, service and quality based on a unique collection.
